

## Concurrent Technologies and TR G4x/msd Achieves VMware Ready™ Status

Concurrent Technologies, today announced that its TR G4x/msd 3U VPX rugged server board has achieved VMware Ready™ status.

This designation indicates that after a detailed validation process [TR G4x/msd](#) has achieved VMware's highest level of endorsement and is supported on VMware vSphere Hypervisor (ESXi) 6.7 for production environments.

*"We are pleased that Concurrent Technologies TR G4x/msd qualifies for the VMware Ready™ logo, signifying to customers that it has met specific VMware interoperability standards and works effectively with VMware cloud infrastructure. This signifies to customers that TR G4x/msd can be deployed in production environments with confidence and can speed time to value within customer environments."* said Kristen Edwards, director, Technology Alliance Partner Program, VMware.

By using Concurrent Technologies [TR G4x/msd](#) with vSphere Hypervisor (ESXi) 6.7, organizations can benefit from workload consolidation to create higher performance mission control systems within the same physical enclosure. This delivers on the premise of improving on the Size, Weight and Power (SWaP) metric that is so important for rugged solutions.

Jane Annear, Managing Director of Concurrent Technologies commented: *"We have been working hard to provide highly rugged solutions that are capable of running the same software environment as that widely used in data centers. We have a number of key customers adopting VMware vSphere Hypervisor (ESXi) 6.7 and we now have the necessary certification to enable them to deploy their solutions."*

The VMware Ready program is a co-branding benefit of the [Technology Alliance Partner \(TAP\) program](#) that makes it easy for customers to identify partner products certified to work with VMware cloud infrastructure. Customers can use these products and solutions to lower project risks and realize cost savings over custom built solutions. With thousands of members worldwide, the VMware TAP program includes best-of-breed technology partners with the shared commitment to bring the best expertise and business solution for each unique customer need.

Concurrent Technologies [TR G4x/msd](#) can be found within the online VMware Solution Exchange (VSX) [here](#). The [VMware Solution Exchange](#) is an online marketplace where VMware partners and developers can publish rich marketing content and downloadable software for our customers.

About [TR G4x/msd](#)

It is optimized for rugged server applications which need excellent processing, memory and storage capabilities in a single 3U VPX slot with multiple 10 Gigabit and Gigabit Ethernet ports. TR G4x/msd is targeted towards long life-cycle rugged server applications across a range of military, aerospace, transportation and test markets.
