

FLIR Systems Announces Delivery Order for \$12.4 Million From the U.S. Army

PORTLAND, OR, Apr 08, 2010 (MARKETWIRE via COMTEX News Network) -- FLIR Systems, Inc. (NASDAQ: FLIR) announced today that it has received a \$12.4 million order from the U.S. Army for its Star SAFIRE(R) II stabilized multi-sensor systems. The units delivered under this order will be deployed on UH-60 helicopters in support of ongoing Medevac operations. This order adds to the more than 200 Star SAFIRE systems already deployed on UH/HH-60 Medevac helicopters.

Work on the delivery order will be completed within the next twelve months in FLIR's Wilsonville, Oregon facility.

"This order, a continuation of FLIR's long-term partnership with the U.S. Army on Black Hawk operations, demonstrates the value of our systems to support critical life-saving Medevac missions," said Earl R. Lewis, President and CEO of FLIR. "We take great pride in the development and manufacture of U.S. Army certified and battletested camera systems and are pleased the U.S. Army has once again chosen FLIR products."

Forward-Looking Statements

The statements in this release by Earl R. Lewis, and the other statements in this release about the order described above, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are based on current expectations, estimates and projections about the Company's business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including the following: the ability to manufacture and deliver the systems referenced in this release, changes in demand for the Company's products, product mix, the timing of deliveries under the order discussed above, the impact of competitive products and pricing, constraints on supplies of critical components, excess or shortage of production capacity, the ability of the Company to manufacture and ship products in the time period required, actual purchases under agreements, the Company's continuing compliance with US export control laws and regulations, the timely receipt of export licenses for international shipments, the continuing eligibility of the Company to act as a federal contractor, and other risks discussed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic and international economic conditions. Such forward-looking statements speak only as of the date on which they are made and the Company does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this release, or for changes made to this document by wire services or Internet service providers.
