

Sital Signs Partnership with Sealevel Systems Inc.

LIBERTY, SC, USA, 30-Jan-2013 - Sealevel Systems, Inc. has signed a partnership agreement with Sital Technology LTD to manufacture and distribute MIL-STD-1553 board level products, IP cores, components and custom computer designs for aerospace, avionics and military applications. Sital Technology, headquartered in Israel, is a leading provider of MIL-STD-1553 and other avionics bus technologies and products.

Sital embeds its vast experience and proficiency in its products which include the widely used Mil-Std-1553 and ARINC 429 IP cores, components, boards and testers, as well as uncommonly used protocols like H009, WB194 and French DigiBus.

"Sital's IP core products provide proven MIL-STD-1553 technology, which enables lower-cost, higher value products," said Duli Yariv, Sital's VP of Marketing. "Partnering with Sealevel in the U.S. will bring proven solutions to rugged applications that demand strict adherence to stringent military and aerospace specifications."

Sital's proficiency has been built up over 20+ years. The founders are veterans of the Israeli Air Force and are experts in MIL-STD-1553, ARINC, CAN and other bus applications. Working with F15 and F16 military avionics and numerous applications, Sital extended its world-class expertise to commercial and other military aircraft via myriad challenging and highly-successful projects whose results are installed and operating today on thousands of aircraft around the world.

"Sital's expertise in flexible, reliable FPGA based MIL-STD-1553 technology complements Sealevel's existing standard I/O product offering and makes them a natural fit as a partner for Sealevel. We are excited about working with Sital to expand our COM Express carrier board capabilities to better serve our customers," said Ben O'Hanlan, Sealevel president.

ABOUT SITAL TECHNOLOGY

Sital Technology provides world-class products and expertise for communication bus applications in the avionics, aerospace and automotive industries. Sital embeds its vast experience and proficiency in its products which include Mil-Std-1553 and other avionics IP cores, components, boards and testers, as well as CAN bus devices and applications. Sital's bus technologies and expertise improve robustness and efficiency as they lower cost, space and resource utilization.

ABOUT SEALEVEL SYSTEMS, INC.

Sealevel Systems, Inc., founded in 1986, provides industrial computing solutions in addition to a variety of communications and I/O products including PCI Bus cards, Ethernet serial servers, USB serial adapters, PCMCIA cards, and PC/104 modules. The product line includes multi-port RS-232, RS-422/485, RS-232/422/485 multi-interface high-speed sync/async, and digital/relay I/O. For more information, visit www.sealevel.com or call +1 864-843-4343.
