# Techaya presents – Ultra Compact 8 x 1GbE Embedded Military Board Level Ethernet Switch

Techaya presents the **MILTECH 718** – A rugged, cost-effective, ultracompact board-level Ethernet switching solution (70x40mm). Equipped with 8GbE 10/100/1000Mbps ports.

- 8 x 1Gb Ethernet ports.
- Compact size: 70mm (L) x 40mm(W).
- Dimensions in inches: 2.75''(L) x 1.57''(W).
- Consumes only 5W of power and uses 9-32Vdc input.
- Standards: MILSTD-461F, MILSTD-810F/G, IP68 when installed in an appropriate chassis.

This new board level switch, by Techaya, is ideal for integration directly on the users main system through board-to-board connectors such as: Unmanned aerial vehicles (UAVs) or Drones, Land autonomous vehicles (UGVs), Robots and other unmanned support vehicles, delivering Gigabit Ethernet speed that many video and sensor applications need.
